

1-day intensive hands-on workshop

INNOVATIVE APPROACHES TO EMI IN ENGINEERING

DATE

DURATION

LOCATION

TUESDAY, JANUARY 14, 2025

9:00 am – 6:30 pm Via Terracini 28, Bologna, DICAM

WHY ATTEND

Join this 1-day intensive workshop designed for DICAM lecturers teaching in English. Gain insights and practical tools to enhance your EMI (English-Medium Instruction) courses.

WHO SHOULD ATTEND

This workshop is designed for lecturers in the Engineering Department at DICAM who teach or are planning to teach in English. Ideal for educators looking to enhance their communication, engagement, and assessment skills in English-Medium Instruction (EMI) settings. Both new and experienced EMI lecturers will benefit from the practical strategies and interactive sessions.

About the Workshop

This workshop will be led by [Mariangela Picciuolo](#), Research Fellow and project lead for **I-TEACH@DICAM**.

WORKSHOP SCHEDULE

› Effective Communication in the EMI Classroom

9:30 – 10:45 am

Verbal and non-verbal strategies to improve student understanding.

› Cultural Diversity Awareness

11:00 am – 12:15 pm

Building intercultural competence in diverse classrooms.

› Engaging Students in EMI

1:15 – 2:30 pm

Techniques for active learning and digital tools.

› Assessment Methods in EMI

2:45 – 4:00 pm

Fair assessments that address language challenges.

› Designing Course Structure

4:15 – 5:30 pm

From syllabus development to lesson planning.

Each module will also feature introductory video bites from [ICLHE](#) research group members, providing insights to set the stage for the day's activities.

› Guest Speakers

5:30 – 6:30 pm

We are pleased to welcome [Dr. Dogan Yuksel](#) (Open University, UK) and [Dr. John Airey](#) (Uppsala University, Sweden), both EMI experts with STEM backgrounds, who will join us online to share practical insights on teaching effectively in English for technical subjects.
