## NOTICE OF SEMINAR

### **SLB: Driving Energy Innovation for a Balanced Planet – Global Technology and Operations in Italy.**

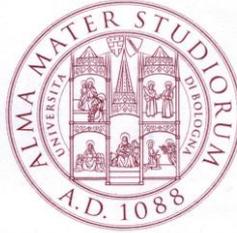

by

**Martha Mancilla** - SLB/Eur Recruiting Coordinator

**Reza Shahbaz** - SLB/Eur South Country Manager

Bologna, 12-th March 2026, Via Terracini 28, room TA-01, 2.00-4.00 pm

*SLB is a global technology company with a legacy of 100 years in the energy industry. SLB creates amazing technology that unlocks access to energy for the benefit of all. This seminar will provide an overview of SLB's corporate purpose and commitment to decarbonizing the industry while meeting global energy demand. Moreover, the seminar will take a deep dive into the technologies and solutions that put SLB at the forefront of energy innovation highlighting our operation in Italy and South EUR. In addition, the seminar will provide a comprehensive look at Early Career opportunities for engineers. From field operations to advanced manufacturing, will be discussed how young professionals can join SLB in delivering the technology that defines the future of energy.*

*DIPARTIMENTO DI INGEGNERIA CIVILE, CHIMICA, AMBIENTALE E  
DEI MATERIALI DICAM*

*The seminar is aimed at recent graduates and students, interested both in deepening their knowledge of energy supply issues, and in learning about the technical profiles required by SLB for young graduates or students in Engineering. **The last 30 minutes of the Seminar will be dedicated to interacting with students on career opportunities and SLB portfolio.***
